

Consolidated Technology Services • WA

Service Announcement

December 26, 2013

TO: CTS Teamsite Web Content Management Customers
Other Interested Parties

FROM: Kay Metsker
Teamsite Web Content Management Service Owner

SUBJECT: Sunset Announcement – Teamsite Web Content Management

This service announcement provides notification that Consolidated Technology Services (CTS) intends to retire the Teamsite Web Content Management service as of December 31, 2014. Teamsite is an Enterprise-Level Web Content Management solution.

The Teamsite service has been offered since September of 2002, first at DIS and then at CTS. The original promise of widespread adoption of this service by Agency Webmasters has not occurred. As a result, continuation of the service with the few remaining customers is no longer practical.

CTS will continue to operate a Teamsite environment until December 31, 2014 for those customers who either:

- a. Have applications dependent on Teamsite; or
- b. Need additional time to migrate from Teamsite to a different Web Content Management solution

Additional information regarding this announcement will be provided to impacted customers as needed.
